| County of Residence | broward |
| City or Municipality of Residence | fort lauderdale |

Q2

Goal #1: Innovation and Competitiveness To support programs and strategies, including international trade, which i retention, expansion and the attraction of businesses, and improve the capacity of small businesses to participate Florida's economic activities. To support complementary data collection and dissemination efforts among local juri combining data on available "ready" sites and workforce characteristics. Encourage the development of a complet of workforce training throughout the region To enhance the resilience of the South Florida economy in the face of n and changes to the national and state economies through increased awareness and preparation by businesses for e risks

- "Provide technical assistance (what type of technical assistance?) to organizations such as MIA, FLL, Key West Airport and Port Everglades, Port Miami."
- The Goal should speak to large job/economic generators, such as Port Everglades?
- The Goal (or an objective) should speak to increasing statewide competitiveness for major economic generators. For instance, h Port Everglades competitiveness from ports such as Port Canaveral and Port Jacksonville?

Q3

Goal #2: Opportunity and Prosperity To support the development of a diversified economy by expanding the quanti of job opportunities. To prepare a skilled workforce that supports the business community through programs and to address education, training and the attraction/retention of qualified workers. To promote the retention and contini improvement of existing partnerships (intergovernmental, public-private, interagency, etc), and the creation of nev to meet South Florida's economic challenges. To ensure that there is a superior network of public infrastructure wit land use regulations to maintain the region as a competitive location for targeted industries and to pro + pub homeland security. To educate government and businesses on continuity and recovery plans and to sup + can in in the event of natural or man-made disasters. To promote a regional perspective on multi-modal transportation sy

people, goods, and services that includes transit, highway, seaport, airport, rail, broadband, and multi-use trail pla development.

- Port recommend the final statement of this goal (re multi-modal transportation) be split into two statements: one focusing on t people and one on the movement of goods. While they often use the same transportation systems, their needs and impacts are very
- Add an objective that supports the ability for major regional economic generators to be able to re-open for business as quickly : natural disaster.

Q4

Goal #3: Vitality and SustainabilityTo promote a high quality of life and ensure a sustainable community offering a affordable housing, quality education and healthcare systems, historical and cultural facilities, tourist attractions special events, festivals, and sports. To promote the sustainable use of the natural resources (especially water res green building through sound economic development activities consistent with environmental management goals.

- Consider an objective that speaks to co-location of housing and job opportunities. This may significantly reduce transportation traffic on the regional roadways.
- There should be an objective that supports South Florida seaports (e.g. Port Everglades) status as one of the top cruise ports ir
