

Elia Nunez, P.E., Assistant Director of Engineering, Planning & Development, Miami-Dade Department of Transportation and Public Works

Ms. Nunez is currently the Assistant Director of Transit planning, design and engineering at Miami Dade County. She is responsible for advancing the SMART plan corridors and implementing infrastructure projects. Previously, Elia managed large scale transit Project Development and Environment studies in the private sector.

Ms. Nunez also managed the Public Works and Capital Projects for the City of Miami and held the Public Works Director position at the Town of Miami Lakes. She has demonstrated success in managing architectural and engineering projects for the State, County, Municipality, and Private sectors throughout the years. She has extensive experience in transportation and infrastructure designs (highway/roadway, drainage systems, signalization, signing, utility, pavement markings and lighting).

She's a licensed Professional Engineer with a Bachelors Degree in Civil Engineering and architectural engineering from the University for Miami.
