

MEMORANDUM

AGENDA ITEM #V.A.1

DATE: MARCH 2, 2015
TO: COUNCIL MEMBERS
FROM: STAFF
SUBJECT: REGIONAL TRANSPORTATION UPDATE

South Florida transportation agencies continue to plan, design and operate a wide variety of facilities and modal systems in order to ensure the movement of people and goods within the region. In addition, our ports and airports require intergovernmental cooperation to facilitate the movement of visitors and freight to and from our region. The South Florida Regional Council has invited representatives of key transportation entities to provide an update briefing at their March 2nd Council meeting at District 6, Florida Department of Transportation's Auditorium. This regional convening will provide Council Members and the public information on upcoming transportation improvements and discuss opportunities for public involvement in important, ongoing transportation planning activities that will impact the Region in the future.

Presentations will include the following:

Florida Department of Transportation
South Florida Regional Transportation Authority (Tri Rail)
All Aboard Florida

Recommendation

Information only.
