RE: Letter of Transmittal regarding the 2020 Water Supply Facilities Work Plan Update and associated Comprehensive Plan Amendments.

Dear Mr. Ray Eubanks,

Enclosed please find one printed copy and two electronic (.pdf) copies of the City of South Miami 20-Year Water Supply Facilities Work Plan Update and related Comprehensive Plan Amendments.

Chapter 163.31777, Florida Statutes (F.S.), requires local municipalities to prepare and adopt 20-Year Water Supply Facilities Work Plan and related comprehensive plan amendments within 18 months of approval of the region’s water supply plan. The City of South Miami is located within the regional boundaries of the South Florida Water Management District (SFWMD). The SFWMD approved the 2018 Lower East Coast Water Supply Plan on November 8, 2018. Therefore, the City is required to adopt its 20-Year Water Supply Plan at this time.

Based on this evaluation, the City has determined that amendments to the Capital Improvements, Conservation, Intergovernmental Coordination, and Infrastructure Elements are required to ensure coordination with the regional water supply plan, and to update the data for the 20-year planning period plan to address State statutory requirements at this time.

The documents have also been transmitted to those copied. Thank you for your assistance in this matter. Please contact Kathryn Lyon 305-594-0735 or at klyon@corradino.com if you have any questions or need additional information.

Sincerely,

Kathryn Lyon, AICP, CFM
Planning Consultant
