## JULIET MURPHY ROULHAC

---

Juliet Murphy Roulhac is the Regional Director for Corporate External Affairs - Broward and West Florida, for Florida Power & Light Company, a Fortune 200 company which is the largest electric utility in the state, and one of the largest electric utility providers of clean energy in the country. Ms. Roulhac manages governmental and community relations with elected officials and major stakeholders and develops regional strategies for FPL. Her role also includes management of FPL's emergency response teams in her region. She is a licensed attorney and practiced in the General Counsel's Department prior to External Affairs, and has over twenty-five years of complex business litigation and appellate experience.

Ms. Roulhac is the immediate past Chair of the Greater Fort Lauderdale Alliance and is a member of the CEO Council. She is a Past-Chair for the Greater Fort Lauderdale Chamber of Commerce. She serves as the Vice Chair for the Community Foundation of Broward, the Treasurer of the Broward Workshop and serves on the boards of the Museum of Discovery and Science, NSU Medical Executive Leadership Council, NSU Law School Advisory Board and Baptist Hospital BOH/BHE. She is an active member of the Broward County and the TJ Reddick Bar Associations and previously served on the statewide Florida Bar Board of Governors and as a Trustee on the University of Florida Board of Trustees.

Ms. Roulhac holds both BA and Juris Doctor degrees from the University of Florida, where she previously recently served as a gubernatorial appointee on the Board of Trustees. She has resided in the South Florida area for over 35 years.

Florida Power & Light Company is the largest energy company in the United States as measured by retail electricity produced and sold, serving more than five million customer accounts or an estimated 10 million+ people across the state of Florida. FPL's typical 1,000-kWh residential customer bill is approximately 30 percent lower than the latest national average and among the lowest in the U.S. FPL's service reliability is better than 99.98 percent, and its highly fuel-efficient power plant fleet is one of the cleanest among all electric companies nationwide. The company was recognized in 2018 as one of the most trusted U.S. electric utilities by Market Strategies International for the fifth consecutive year. A leading Florida employer with approximately 8,700 employees, FPL is a subsidiary of Juno Beach, Florida-based NextEra Energy, Inc. (NYSE: NEE), a clean energy company widely recognized for its efforts in sustainability, ethics and diversity, and has been ranked No. 1 in the electric and gas utilities industry in Fortune's 2019 list of "World's Most Admired Companies." NextEra Energy is also the parent company of Gulf Power Company, which serves more than 460,000 customers in eight counties throughout Northwest Florida, and NextEra Energy Resources, LLC, which, together with its affiliated entities, is the world's largest generator of renewable energy from the wind and sun and a world leader in battery storage. # Irene R. White

## Senior Director, Miami-Dade External Affairs

Irene White is the senior director of external affairs for Florida Power & Light Company, where she leads a team of committed individuals in building and fostering community relationships in Miami-Dade County.

Irene joined FPL in 1986 as an engineer service planner advancing within the company by serving in various customer service and operational positions. During the construction boom years of 2000 to 2004, she served as the area manager for the south and west sections of the county and was responsible for the construction, maintenance, and restoration of all electric distribution facilities. Prior to her current role, she served as senior director of distribution operations support for Florida.

An engineer by trade, one of her fortes is to take lessons learned, recommend solutions, and see major system improvements to fruition. Following the volatile 2004-05 storm season, Irene was instrumental in identifying emergency preparedness and hurricane improvements, including strategies that deploy resources to restore power safely and quickly. In addition, she developed communication strategies that provide customers with up-to-date information during storms.

Under her sharp customer focus, she created the Systems Improvements Map to provide customers with more information on the company's reliability and line clearing projects. This allows customers to view FPL's infrastructure work in their neighborhoods. She was also instrumental in improving the customer experience by launching the interactive map [Power Tracker](#), which provides outage information and estimated times of restoration.

Irene is always looking for ways to improve how FPL does business and that includes the development of its people. She oversaw the line specialist apprenticeship program as well as the engineering and leadership development programs. These programs train and develop the professionals that oversee the distribution of electricity.

Irene is the Chairwoman of the Greater Miami Chamber of Commerce for 2020-2021. She is also on the Boards of The Beacon Council, Jackson Memorial Foundation and the American Red Cross. She earned a Bachelor of Science in civil engineering from the University of Miami and a master's in business administration from Florida International University. She is a certified general contractor in the state of Florida and holds a Six Sigma certification.

In her free time, Irene enjoys boating and fishing in the Florida Keys with her husband David, and during football season, UM games.
