

FREE OSHA 10-hour Construction Training

Nova Southeastern University's Institute for Disaster and Emergency Preparedness is offering
FREE OSHA 10-hour Construction Training
In-Person
English and Spanish sessions

This training program is intended to provide entry-level safety and health hazard information tailored specifically to Construction employees.
OSHA defines "Construction Work" as work for construction, alteration and/or repair, Including painting and decorating.

- Provides for employees, supervisors and managers, the skills to recognize, avoid, control, abate and prevent injuries and accidents in the workplace environment.
- Informs workers about their rights and their employer's responsibilities and explain how to file a complaint with OSHA.
- Educates workers on a variety of safety topics which workers may encounter at a construction site.

Topics

- Confined Spaces for Construction
- Excavations
- Scaffolding
- Materials Handling/ Storage/ Use and Disposal
- Cranes, Derricks, Hoists, Elevators, and Conveyors
- Tools- Hand and Power
- Focus Four: (leading causes of Death in construction) Falls, Electrocution, Struck-By, Caught-In or Between
- PPE
- Health Hazards
- Bloodborne Pathogens
- Fire Protection and Fire Prevention
